

Identity and Access Management Technology Partners

Caradigm works with an ecosystem of partners worldwide.

These partners provide services and solutions for complex business challenges within healthcare.

| PARTNER | OVERVIEW |
|---|--|
|  | <p>BIO-key delivers fast, accurate, and compliant solutions that are interoperable on any device for providers accessing EHR. By reducing the use of passwords, BIO-key expedites the log-in experience, enabling more time for providers to care for patients. BIO-key is a DEA compliant solution for two-factor authentication and the BIO-key algorithm received top scores for accuracy from NIST.</p> |
|  | <p>The Citrix Ready program showcases verified products that are trusted to enhance Citrix cloud solutions for mobility, virtualization, networking and cloud platforms. The Citrix Ready designation is awarded to third-party partners that have successfully met test criteria set by Citrix, and gives customers an added confidence in the compatibility of the joint solution offering.</p> |
|  | <p>Dell is among the leading providers of IT services to the healthcare industry providing providers, payers and pharmaceutical companies with leading business and technology solutions that extend from the point of care to the data center. Dell's integrated business process and technology solutions help hospitals maximize efficiency and reimbursement; achieve clinical excellence and create communities of practice to more efficiently deliver patient care.</p> |
|  | <p>Duo Security is a cloud-based trusted access provider protecting the world's fastest-growing companies and thousands of organizations worldwide, including NASA, Toyota, and Altegra Health, Rochester Regional Health System, The Royal Victorian Eye & Ear Hospital, and more. Duo Security's innovative and easy-to-use technology can be quickly deployed to protect users, data, and applications from breaches, credential theft and account takeover.</p> |

Identity and Access Management Technology Partners

| PARTNER | OVERVIEW |
|---|--|
|  | <p>FairWarning delivers information security intelligence and insights for mission critical applications, such as Salesforce, Office 365, and EHRs. FairWarning provides a comprehensive platform and managed services for real-time and continuous monitoring, advanced threat detection and filtering, performing forensic investigations and incident containment, enforcing access policies, conducting legal investigations, and improving compliance effectiveness with complex federal and state privacy laws.</p> |
|  | <p>HP has more than 50 years of healthcare experience, delivering the solutions healthcare organizations require and demand. HP's extensive portfolio of products, solutions, services and support network help to improve operational efficiencies, speed innovations into practice, and most importantly, improve quality of care. HP Thin Clients and virtualization enables easy access to the tools and information needed, anywhere, anytime, in a secure manner.</p> |
|  | <p>RF ID EAS designs, develops, and manufactures a complete line of pcProx[®] card readers that support nearly all proximity and contactless smart card technologies, in addition to offering iCLASS SE[™], iCLASS[™] and NFC capabilities. All RF ID EAS products are HIPAA compliant and designed to keep healthcare organizations on top of their compliance requirements.</p> |
|  | <p>Caradigm is a member of VMware's Technology Alliance Program. Caradigm Identity and Access Management (IAM) suite complements VMware View desktop infrastructure by providing the capabilities needed for clinicians to rapidly and securely access applications and data as they transition among patients and locations throughout the day. Caradigm IAM solutions enable strong authentication, single sign-on to mainstream and clinical applications, patient context management, as well as location-aware desktop personalization and customization.</p> |
